

## **FREE microBIOMETER® soil test for the first 100 samples received!**

*Be a part of our research efforts and receive a free test in the process.*

Are you a current microBIOMETER® customer? If so, this is a great opportunity to see if you are getting the same results we do in the lab. New to microBIOMETER®? Use the results provided to find out if our soil test is right for you!

### **How Does it Work?**

1. Collect 1 cup of field moist soil from the top 1-5 inches.
2. Place soil in a Ziplock bag.
3. Please include the following information with your soil sample:
  - Name
  - Email address
  - Date sample taken
  - Identification of crop planted
  - Your city/state
  - Type of soil and any other information you wish to discuss with us
4. The same day, mail sample via U.S. Priority Mail to:  
**Prolific Earth Sciences**  
**2101 State Route 17K**  
**Montgomery, New York 12549**
5. We will email the test results to you.

*Now for the fine print,*

- *Samples must be postmarked no later than **April 30<sup>th</sup>, 2021***
- *Only available to U.S. residents*
- *Limit one soil test per person*
- *Soil must have crop or vegetation, no bare soil please!*

***Thank you for participating!***
